New Cardiovascular Horizons

16th Annual Conference
New Orleans | May 27-29, 2015

- Why is it important to have a world class program to treat PAD and Venous disease?
- How to build a Peripheral vascular program
 - Screening
 - Outreach
 - Patient and provider education
- Understand Billing and optimize collections.
- Where are we headed? Are in-office labs a fad or the future?
- Considerations in choosing equipment and additional ongoing training programs to lead rather than follow.
- Optimizing outcomes and patient satisfaction.

- There is a great opportunity to save lives, save limbs, improve quality of life, lessen overall healthcare expenditures, and have a successful business model.
- LETS GET STARTED
