TARGET AUDIENCE
This activity is intended for cardiologists, interventional cardiologists, vascular medicine specialists, cardiothoracic, endovascular, vascular and general surgeons, interventional radiologists, osteopaths, family physicians, internists, endocrinologists, podiatrists, physical medicine and rehabilitation, residents and fellows, diabetes & wound care specialists, advanced practice nurses, physician assistants, nurses, radiology technologists, physical therapists, paramedics, EMTs and healthcare administrators.

STATEMENT OF NEED/PROGRAM OVERVIEW
This program highlights the benefits of the multidisciplinary approach to patient care, which includes primary care physicians, nurses, podiatrists, surgeons, wound care specialists and lab technicians. PAD, CLI, coronary artery disease and stroke are very complex diseases that require the collaborative efforts of a multidisciplinary team to treat successfully. The audience represents the different healthcare fields that need to come together to raise awareness among patients about CVD symptoms, the importance of follow-up care and the dangers that not seeking treatment may lead to, including stroke, amputation and death.

EDUCATIONAL OBJECTIVES
Upon completion of this activity, participants will be able to:

• Discuss the indications, risks and complications of interventional therapies in the treatment of cardiovascular disease, peripheral artery disease and critical limb ischemia.
• Understand and implement contemporary approaches in peripheral vascular management (including carotid, renal and mesenteric, SFA, below-the-knee, venous disease and aortic) based on recent clinical trials and evidenced-based data.
• Apply appropriate applications of new endovascular technologies for patients with vascular disease.
• Describe appropriate pharmacologic management in the care of patients with cardiovascular disease, peripheral artery disease and critical limb ischemia.
• Discuss various testing modalities and comprehensive spectrum of care in patients with foot ulcers and threatened limbs.
• Explain proper use and interpretation of diagnostic
tools and apply appropriate screening techniques for peripheral artery disease.

- Recognize the roles and responsibilities of multidisciplinary members of a comprehensive PAD clinical team.

**PHYSICIAN ACCREDITATION STATEMENT**

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Academy for Continued Healthcare Learning (ACHL) and New Cardiovascular Horizons Foundation (NCVH). ACHL is accredited by the ACCME to provide continuing medical education for physicians.

**PHYSICIAN CREDIT DESIGNATION**

Academy for Continued Healthcare Learning designates this live activity for a maximum of 30.50 AMA PRA Category 1 Credits. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The breakdown of AMA PRA Category 1 Credits is as follows:

- NCVH Annual Conference (May 31 - June 02, 2017) - Maximum of 24.50 AMA PRA Category 1 Credits
- NCVH Vein Forum (June 03, 2017) - Maximum of 6.00 AMA PRA Category 1 Credits

Please note that as sections of this program are concurrent, if all educational activities are attended, the maximum number of AMA PRA Category 1 Credits that can be earned is 30.50. Additionally, only those that participate in the NCVH Vein Forum on Saturday, June 03, should claim over 24.50 AMA PRA Category 1 Credits. Those registrants not attending this post conference session should only claim a maximum of 24.50 AMA PRA Category 1 Credits

The following sessions are not designated for AMA PRA Category 1 Credit:
- Fellows Course
- Business of Peripheral Interventions
- Industry Symposia.
NURSING CONTINUING EDUCATION
This activity has been planned and implemented in accordance with the Essential Areas and Policies of the American Nurses Credentialing Center (ANCC) through a joint sponsorship with the New Cardiovascular Horizons Foundation.

The Alabama State Nurses Association Approval Committee has approved this activity for 24.00 contact hours: Educational activity number 2-0.1885. Nurses should claim only the credits commensurate with the extent of their participation in New Cardiovascular Horizons Annual Conference.

PHYSICIAN ASSISTANTS
AAPA accepts certificates of participation for educational activities certified for AMA PRA Category 1 Credit™ from organizations accredited by ACCME or a recognized state medical society.

COUNCIL ON PODIATRIC MEDICAL EDUCATION
The Ohio Foot and Ankle Medical Association has approved the New Cardiovascular Horizons 2017 Annual Conference for 24 contact CPME hours. Podiatrists should claim only the credits commensurate with the extent of their participation in New Cardiovascular Horizons Annual Conference.

AMERICAN SOCIETY OF RADIOLOGIC TECHNOLOGISTS
Technicians should claim only the credits commensurate with the extent of their participation in New Cardiovascular Horizons Annual Conference.

AMERICAN ACADEMY OF PROFESSIONAL CODERS (AAPC)
The AAPC has approved “Understanding the Business of Peripheral Interventions” for 7.5 contact hours: Index number NCH0503171524A.

DISCLOSURE OF CONFLICTS OF INTEREST
New Cardiovascular Horizons Foundation requires instructors, planners, managers and other individuals and their spouse/life partner who are in a position to control the content of this activity to disclose any real or apparent conflict of interest they may have as related to the content of this activity. All identified conflicts of
ACCREDITATION

interest are thoroughly vetted by NCVH for fair balance, scientific objectivity of studies mentioned in the materials or used as the basis for content, and appropriateness of patient care recommendations.

DISCLOSURE OF UNLABELED USE
The content for this activity was developed independently of the commercial supporters. All materials are included with permission. The opinions expressed are those of the faculty and are not to be construed as those of the publisher or grantors.

This educational activity was planned and produced in accordance with the ACCME Accreditation Criteria, Policies and Standards for Commercial Support. Recommendations involving clinical medicine in a continuing medical education (CME/CE) activity must be based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients. All scientific research referred to, reported or used in CME/CE in support or justification of a patient care recommendation must conform to the generally accepted standards of experimental design, data collection and analysis.

This CME/CE activity might describe the off-label, investigational or experimental use of medications that may exceed their FDA-approved labeling. Physicians should consult the current manufacturers’ prescribing information for these products. ACHL requires the speaker to disclose that a product is not labeled for the use under discussion.

DISCLAIMER
Participants have an implied responsibility to use the newly acquired information to enhance patient outcomes and their own professional development. The information presented in this activity is not meant to serve as a guideline for patient management. Any procedures, medications or other courses of diagnosis or treatment discussed in this activity should not be used by clinicians without evaluation of patient conditions and possible contraindications on dangers in use, review of any applicable manufacturer’s product information and comparison with recommendations of other authorities.
CERTIFICATE INSTRUCTIONS
Physical (paper) accreditation certificates will not be issued at this meeting.

Participants will receive an email from registration@ncvh.org within five to seven (5-7) business days after the meeting with a link to complete the required evaluation and download certificates in PDF format. Certificates are also available for download in the NCVH user portal at ncvh.org/login.

For questions or assistance, please contact us at info@ncvh.org or 337.993.7920.
PHOTOGRAPHY AND VIDEO

Please be advised that photographs and/or video may be taken at the meeting for use:

- On the conference website and on conference social media pages.
- In the press, including marketing materials and publications distributed to the public.

By entering the meeting, you consent to the use of your image and likeness for the purposes mentioned above.

5:26 PM  Limiting Radiation: Crucial Tips and Tricks for You and  
         the Patient  
         William Lombardi, MD

5:34 PM  Our Ability to Treat Coronary CTOs is Changing  
         Treatment Paradigms: Native Vessel vs. Bypass, Is This  
         Applicable in PAD?  
         Jack Casas, MD

5:42 PM  Lessons to Be Learned in CLI Interventions About  
         Progressive Algorithms Used in Treating Coronary  
         CTOs: Don’t Get Stuck  
         Amjad AlMahameed, MD

5:50 PM  Questions and Answers/Panel Discussion

6:00 PM  Adjourn
GLOBAL SUMMIT ON ADVANCED AORTOILIAC AND FEMORAL INTERVENTIONS FOR PERIPHERAL ARTERY DISEASE SESSION IV 8:00 AM - 10:16 AM

Moderator: Jaafer Golzar, MD
Crescent City Ballroom | Mezzanine Level

8:00 AM  Lessons from DEFINITIVE LE About Use of Excisional Atherectomy: The Body of Evidence Utilizing Turbohawk Above the Knee
Lawrence Garcia, MD

8:08 AM  An Update on JetStream Atherectomy in Treating Femoropopliteal In-Stent Restenosis
Nicolas Shammas, MD

8:16 AM  New Tools in Laser Atherectomy Above the Knee
Craig Walker, MD

8:24 AM  Minimally Invasive Endarterectomy: Using Optical Coherence Tomography (OCT) to Guide Precision Debunking
Patrick Muck, MD

8:32 AM  Orbital Atherectomy to Prepare Calcified Lesions for Optimal Drug Uptake With Drug-Coated Balloons
Thomas Davis, MD

8:40 AM  Live Case: Bad Krozingen, Germany
Thomas Zeller, MD

9:00 AM  Live Case: New Haven, CT
Carlos Mena, MD

9:20 AM  JET Registry 12-Month Data
Lawrence Garcia, MD

9:28 AM  Role of Distal Protection in PAD Interventions
Eric Dippel, MD

9:36 AM  Novel Approach to Treatment of Aortoiliac Disease with a Bifurcated Unibody Graft
Robert Beasley, MD

9:44 AM  Endovascular Therapy of Popliteal Artery Aneurysms
Jaafer Golzar, MD

9:52 AM  Role of Hybrid Approach in Treating Superficial Femoral Artery (SFA) and Popliteal Disease
Venkatesh Ramaiah, MD

10:00 AM  Dealing with Retroperitoneal Bleeds Interventionally
Nelson Bernardo, MD

10:08 AM  Thrombectomy Options in Superficial Femoral Artery (SFA) and Popliteal Disease
George Adams, MD

10:16 AM  Break/Exhibits
AGENDA | GENERAL SESSION

10:30 AM - 12:00 PM

13TH ANNUAL CRITICAL LIMB ISCHEMIA SUMMIT
SESSION I
Moderator: Craig Walker, MD
Crescent City Ballroom | Mezzanine Level

10:30 AM The Scope of Critical Limb Ischemia (CLI): A Worldwide Problem
Mary Yost, MBA

10:38 AM Defining CLI: Do We Need a Better Definition?
Sahil Parikh, MD

10:46 AM Clinical Exam in CLI: Basic Workup Before Referral
Sohail Khan, MD

10:54 AM Importance of Computed Tomography Angiography (CTA) and Magnetic Resonance Angiography (MRA) in Evaluating CLI and Planning Intervention
Thomas McNamara, MD

11:02 AM Renal Insufficiency Does Not Exclude Angiography: The Role of CO² in CLI Imaging
James Caridi, MD

11:10 AM Live Case: Abano Terme, Italy
Marco Manzi, MD
Mariano Palena, MD

11:30 AM Live Case: Wyoming, MI
Jihad Mustapha, MD

11:50 AM Encouraging Single-Center Data Utilizing Ultrasound-Facilitated Drug Delivery
Roberto Gandini, MD

11:58 AM Questions and Answers/Panel Discussion

12:00 PM Lunch/Lunch Symposia/Exhibits

13TH ANNUAL CRITICAL LIMB ISCHEMIA SUMMIT
SESSION II
1:00 PM - 3:00 PM
Moderator: Pradeep Nair, MD
Crescent City Ballroom | Mezzanine Level

1:00 PM Assessment of Perfusion in Critical Limb Ischemia Interventions: The New Endpoint in CLI?
Larry Diaz-Sandoval, MD

1:08 PM Angiogenesis in CLI
George Adams, MD

1:16 PM Pedal Access in CLI: When to Use It and How to Avoid Damage
Fadi Saab, MD

1:24 PM Will Drug-Eluting Balloons Be a Part of CLI Therapy After IN.PACT DEEP?
Jon George, MD

1:32 PM LIBERTY 360: 6-Month Outcomes of 100 Rutherford 6 Patients (via satellite)
Jihad Mustapha, MD

RENNAL AND MESENTERIC DISEASE TREATMENT AND TECHNIQUES 8:00 AM - 9:30 AM

Moderators: Jasvindar Singh, MD | Kenneth Abreo, MD
Crescent City Ballroom | Mezzanine Level

8:00 AM  Choosing the Best Vascular Access for End-Stage Renal Disease (ESRD) Patients
Kenneth Abreo, MD

8:08 AM  Native Renal and Renal Transplants
Jasvindar Singh, MD

8:16 AM  Coral Reefs and Renal Artery Stenting
Oscar Rosales, MD

8:24 AM  Renal Denervation
Bharat Sachdeva, MD

8:32 AM  When an Arteriovenous Fistula (AVF) Clots
Kenneth Abreo, MD

8:40 AM  Live Case: Bad Krozingen, Germany
Thomas Zeller, MD

9:00 AM  Live Case: Browns Mills, NJ
Richard Kovach, MD

9:20 AM  Questions and Answers/Panel Discussion

9:30 AM  Break/Exhibits

ADVANCED CAROTID INTERVENTIONS 9:45 AM - 12:00 PM

Moderators: Mark Wholey, MD | Robert Beasley, MD
Crescent City Ballroom | Mezzanine Level

9:45 AM  What Did the CREST Trial Reveal to Us?
Anthony Comerota, MD

9:53 AM  I Want Carotid Stenting for My High-Grade Carotid Lesion
Mark Wholey, MD

10:01 AM  A Dedicated Look at the CAPTIVE Study
Jose Wiley, MD

10:09 AM  Trans-Carotid Arterial Revascularization: Why Go Trans-Femoral Ever Again?
Steve Henao, MD

10:17 AM  Concomitant Carotid and Coronary Revascularization: Is It Still a Bad Idea?
George Chrysant, MD

10:25 AM  Proximal or Distal Protection for Carotid Stenting
Deepak Thekkoott, MD
10:41 AM  Transcarotid Artery Revascularization  Steve Henao, MD
10:49 AM  New Stents for Carotid Stenting  Yaron Almagor, MD
10:57 AM  Questions and Answers/Panel Discussion
11:02 AM  Live Case: Bad Krozingen, Germany  Thomas Zeller, MD
11:22 AM  Live Case: Browns Mills, NJ  Richard Kovach, MD
11:42 AM  Vertebral Artery Interventions  James Jenkins, MD
11:50 AM  Subclavian and Brachiocephalic Stenting  Ramzan Zakir, MD
11:58 AM  Questions and Answers/Panel Discussion
12:00 PM  Lunch/Lunch Symposia/Exhibits

INSIGHTS ON VENOUS DISEASE SESSION I
1:00 PM - 2:45 PM

Moderator: Seshadri Raju, MD
Crescent City Ballroom | Mezzanine Level

1:00 PM  Welcome and Opening Remarks  Craig Walker, MD
1:02 PM  Keynote Address: The Impact of Venous Disease  Seshadri Raju, MD
1:18 PM  History and Physical Findings of Venous Disease  Timothy Yates, MD
1:26 PM  Non-Invasive Diagnosis of Iliac Venous Outflow Obstruction  Patricia Thorpe, MD
1:34 PM  Consideration in Planning Venous Access  Raghootam Patlola, MD
1:42 PM  Indications for Inferior Vena Cava Filter Placement and the Importance of a Inferior Vena Cava Filter Clinic  Deepak Sudheendra, MD
1:50 PM  When Should Inferior Vena Cava Filters be Utilized and When Not?  Bret Wiechmann, MD
1:58 PM  Complex Inferior Vena Cava Filter Retrieval  Deepak Sudheendra, MD
2:06 PM  Overview of Mechanical Thrombectomy Devices for Venous Disease  W. Britton Eaves, MD
AGENDA | GENERAL SESSION

2:14 PM  Critical Differences Between Venous and Arterial Stenting
Seshadri Raju, MD

2:22 PM  ATTRACT Trial and Impact on Treatment of Venous Disease
Timothy Yates, MD

2:30 PM  The VI DO Study: Confirming the Need for IVUS in the Treatment of Deep Venous Disease
Paul Gagne, MD

2:38 PM  Questions and Answers/Panel Discussion

2:45 PM  Break/Exhibits

INSIGHTS ON VENOUS DISEASE SESSION II
3:00 PM - 5:00 PM

Moderator: Seshadri Raju, MD
Crescent City Ballroom | Mezzanine Level

3:00 PM  Live Ultrasound Demonstration
Paramjit “Romi” Chopra, MD

3:30 PM  CO₂-Guided Venous Intervention
James Caridi, MD

3:38 PM  Superficial Venous Insufficiency: More Than Just a Cosmetic Problem
Robert Coronado, MD

3:46 PM  Deep Venous Thrombosis: How Should We Treat It?
Mohsen Sharifi, MD

3:54 PM  Deep Venous Valves: When and Where Do We Need Them?
Patricia Thorpe, MD

4:02 PM  Managing Legs with Mixed Arterial and Venous Disease
Robert Attaran, MD

4:10 PM  How to Treat Upper Extremity Deep Vein Thrombosis After Instrumentation
Amir Motarjeme, MD

4:18 PM  Treating Superior Vena Cava Syndrome
Raghotham Patlola, MD

4:26 PM  Mechanical Thrombectomy in Venous Cases
Robert Beasley, MD

4:34 PM  Questions and Answers/Panel Discussion

4:50 PM  Closing Remarks
Craig Walker, MD

5:00 PM  Adjourn
AGENDA | GENERAL SESSION II

FRIDAY, JUNE 02

EMERGING AND EVOLVING TECHNOLOGIES FOR ENDOVASCULAR AORTIC REPAIR

9:45 AM - 12:00 PM

Moderator: Grayson Wheatley, III, MD
Waldorf Astoria Ballroom | Mezzanine Level

9:45 AM  Welcome and Opening Remarks
Grayson Wheatley, III, MD

Grayson Wheatley, III, MD

9:57 AM  What You Should Know About Radiation Exposure During Endovascular Procedures (a video presentation by Edward B. Diethrich, MD)

10:07 AM  Paraplegia 2017: How Does it Relate to Thoracic Endovascular Aortic Aneurysm Repair (TEVAR)?
Larry Hollier, MD

10:17 AM  Contemporary Real World Data on Ovation iX and Prime Performance
Sonya Noor, MD

10:27 AM  Anatomy-Driven Endograft Selection for Abdominal Aortic Aneurysm Repair
S. Jay Mathews, MD

10:37 AM  Next Generation Branched and Fenestrated Devices for Thoracoabdominal Aortic Aneurysm Repair
Clayton Brinster, MD

10:47 AM  Fenestrated Aortic Stent-Grafts for Complex Aortic Aneurysms
S. Jay Mathews, MD

10:57 AM  Managing the Left Subclavian Artery Associated with Thoracic Endovascular Aortic Aneurysm Repair
M. Akram Khan, MD

11:07 AM  Uncharted Territory: Ascending Aortic Stenting
Grayson Wheatley, III, MD

11:17 AM  Thoracic Endovascular Aortic Aneurysm Repair for Chronic Type B Aortic Dissections
William Brinkman, MD

11:27 AM  Evolving Concepts of Thoracic Endovascular Aortic Aneurysm Repair for Acute Type B Aortic Dissections
Grayson Wheatley, III, MD

Steve Henao, MD

11:47 AM  Fenestrated Endovascular Aortic Repair: Do’s and Don’ts
Clayton Brinster, MD
AGENDA | GENERAL SESSION II

Questions and Answers/Panel Discussion
Lunch/Lunch Symposia/Exhibits

NEW TECHNOLOGY AND CHALLENGING CASES  
1:00 PM - 3:00 PM

Moderator: Thomas Shimshak, MD  
Waldorf Astoria Ballroom | Mezzanine Level

1:00 PM Welcome and Opening Remarks  
Thomas Shimshak, MD

1:02 PM Keynote Address: New Technologies for Coronary Heart Disease  
Ghassan Kassab, PhD

1:18 PM Different Route, Same Result  
Dwight Dishmon, MD

1:26 PM Dance Your Way to Patency  
Jason Yoho, MD

1:34 PM Delivering New Technologies at Lower Cost: The US Endovascular Paradigm Shift  
Christopher LeSar, MD

1:42 PM Transcatheter Alcohol-Mediated Perivascular Renal Denervation  
Tim Fischell, MD

1:50 PM Early Results on the COPPER-B Trial: The Occlusion Perfusion Catheter for Optimal Delivery of Paclitaxel for the Prevention of Endovascular Restenosis - Below-The-Knee  
Pradeep Nair, MD

1:58 PM Mechanism of Balloon Angioplasty: The Forgotten Art  
Ron Solar, PhD

2:06 PM Randomized Trial of Critical Limb Ischemia Patient Due to Fem/Pop Disease Comparing-Ultrasound Enhanced Delivery of Paclitaxel and DEB: 18-Month Follow-up  
Costantino Del Giudice, MD

2:14 PM Hemostasis of Antegrade Femoral Artery Access Using an Extravascular, Bioabsorbable Closure Device  
Pradeep Nair, MD

2:22 PM Goodbye Hematomas, Hello Sexy Groin  
Robert Beasley, MD

2:30 PM Endovascular "Safety Net": A New Technology in Access Needles  
Rex Teeslink, MD

2:38 PM Mechanical Chemical Ablation of Perforators to Treat Non-Healing Venous Ulcers  
Antoine Adem, MD

Cordially Invites You to
MEET the TITANS
The Networking Event of the Year for the Healthcare Industry’s “Movers and Shakers”

Tuesday, May 30, 2017
6:00 - 7:30 pm
Blue Room
The Roosevelt Hotel
New Orleans
PODIATRY AND WOUND CARE

AGENDA
Dr. Craig Walker, a pure visionary in the field of vascular medicine for the past 30 years, recognized Podiatry and Wound Care professionals as the true gatekeepers of PAD. Consequently, our esteemed professions can serve as vehicles with which to identify and treat PAD and not only save limbs, but also lives!

FRANK TURSI, DPM
Chairman, NCVH Podiatry and Wound Care Education Session
WEDNESDAY, MAY 31

SESSION I: A PODIATRIST’S GUIDE TO VASCULAR DISEASE
10:00 AM - 11:30 AM

Moderator: Frank Tursi, DPM
Blue Room | Lobby Level

10:00 AM  Peripheral Artery Disease and Chronic Venous Insufficiency Awareness
Frank Tursi, DPM

10:12 AM  Non-Invasive Diagnostic Options for Peripheral Artery Disease and Chronic Venous Insufficiency
Cheryl Bongiovanni, PhD

10:24 AM  Office Management of Peripheral Artery Disease: What You Can Do to Assist the Interventionist
Allen Jacobs, DPM

10:36 AM  Advanced Endovascular Techniques, Retrograde Pedal Access, Drug-Eluting Stents and Drug-Eluting Balloons
Osama Ibrahim, MD

10:48 AM  An Overview of Venous Reflux Treatments
Vinay Satwah, DO

11:00 AM  A Case History that Exemplifies the Importance of Interdisciplinary Collaboration
Craig Walker, MD
Frank Tursi, DPM

11:12 AM  Bringing It All Together: The Collaborative Care Network
Alan Block, DPM

11:24 AM  Questions and Answers/Panel Discussion

11:30 AM  Lunch/Lunch Symposia/Exhibits

SESSION II: LOUISIANA PODIATRIC MEDICAL ASSOCIATION
SCIENTIFIC PROGRAM  1:30 PM - 3:10 PM

Moderators: Tyson Green, DPM | William Dabdoub, DPM
Blue Room | Lobby Level

1:30 PM  Preoperative Assessment and Considerations in Patients with Charcot Arthropathy
Tyson Green, DPM

1:50 PM  Surgical Offloading in Wound Care Patients
William Dabdoub, DPM

2:10 PM  Surgical Techniques in Charcot Reconstruction
John Pourciau, DPM

2:30 PM  Complications in Charcot Reconstruction
Tyson Green, DPM

2:50 PM  Postoperative Care in Charcot Reconstruction
Jon Wilson, DPM

3:05 PM  Questions and Answers/Panel Discussion

3:10 PM  Break/Exhibits
**THURSDAY, JUNE 01**

**SESSION III: REGENERATIVE MEDICINE, BIOLOGICS AND OTHER HOT TOPICS**  
10:00 AM - 11:30 AM

Moderator: Alan Block, DPM  
Blue Room | Lobby Level

**PODIATRY AND WOUND CARE WORKSHOPS**  
1:30 PM - 3:00 PM

Moderator: Frank Tursi, DPM  
Blue Room | Lobby Level

Join us for an exciting interactive session of hands-on learning, live demonstrations and round table discussions with experts in the field of podiatric medicine and wound care.
FRIDAY, JUNE 02

SESSION IV: ADVANCED WOUND HEALING TECHNIQUES  
10:00 AM - 11:30 AM

Moderator: Alex Reyzelman, DPM  
Blue Room | Lobby Level

10:00 AM   Elective Surgery in the Treatment of the Diabetic Foot  
            Javier LaFontaine, DPM

10:12 AM   Transmetatarsal Amputation: Is It as Good as We Think?  
            Charles Andersen, MD

10:24 AM   Amputation Outcomes  
            Gary Rothenberg, DPM

10:36 AM   Type and Timing of Revascularization: Does it Affect the Outcome Of Foot Amputations?  
            Alex Reyzelman, DPM

10:48 AM   The Surgical Approach to the Heel Ulcer  
            Joseph Donnelly, DPM

11:00 AM   When Is the Foot Worth Saving?  
            Alex Reyzelman, DPM

11:12 AM   A Surgical Approach to Charcot Debate: Less Is Best vs. Reconstruction Is the Way to Go  
            Gary Rothenberg, DPM  
            Joseph Donnelly, DPM

11:24 AM   Questions and Answers/Panel Discussion

11:30 AM   Lunch/Lunch Symposia/Exhibits

SESSION V: ADVANCED WOUND HEALING TECHNIQUES  
1:30 PM - 3:10 PM

Moderator: Alex Reyzelman, DPM  
Blue Room | Lobby Level

1:30 PM   Wound Healing in Patients with Diabetes  
            Javier LaFontaine, DPM

1:42 PM   Diabetic Foot Infections: How, When and Why?  
            Stephanie Wu, DPM

1:54 PM   Salvaging the Diabetic Foot  
            Guy Pupp, DPM

2:06 PM   Advancing the Standard of Wound Healing  
            Gary Rothenberg, DPM

2:18 PM   Improving Wound Healing Outcomes Using Hypochlorous Solution as a Therapy  
            Steven Kavros, DPM

2:30 PM   Is Hyperbaric Oxygen Therapy Still a Viable Option?  
            Jeffrey Niezgoda, MD

2:42 PM   Treating Complex Wounds in a Veteran Population  
            Howard Kimmel, DPM
FAMILY PRACTICE

AGENDA
NCVH clearly recognizes the contributions of the primary care provider with respect to their role in diagnosing and treating cardiovascular and peripheral artery disease. The Family Practice sessions offer comprehensive content relevant for every primary care provider.

LARRY DIAZ-SANDOVAL, MD
**SESSION I: CARDIOVASCULAR UPDATE FOR THE PRIMARY CARE PROVIDER** 1:30 PM - 3:10 PM

Moderator: Satish Gadi, MD  
Chambers I and III | Mayor’s Suite Level

Zaheed Tai, DO

5:00 PM  Electrical Problems: State-of-the-Art Pacers and Defibrillators for the Primary Care Provider in 2017  
Richard Abben, MD

5:15 PM  Questions and Answers/Panel Discussion

5:30 PM  Adjourn
SESSION III: PERIPHERAL ARTERY DISEASE UPDATE FOR THE PRIMARY CARE PROVIDER  9:30 AM - 11:30 AM

Moderator: Satish Madiraju, MD
Chambers I and III | Mayor’s Suite Level

9:45 AM  My Patient Has Varicose Veins or Ulcers: What Can Be Done in 2017?
Robert Wilkins, MD

10:00 AM  My Patient Has Deep Vein Thrombosis or Just Had a Pulmonary Embolism: What Can Be Done in 2017?
Satish Madiraju, MD

10:15 AM  My Patient Has Renal Artery Stenosis: What Should I Do in 2017?
Garland Green, MD

10:30 AM  When Should I Think My Patient Has Mesenteric Ischemia, and if so, What Should I Do?
Claude Minor, MD

10:45 AM  What Can Be Done with CO2 Angiography and Ultrasound-Guided Peripheral Vascular Intervention in Critical Limb Ischemia?
Bret Wiechmann, MD

11:00 AM  My Patient Has Diabetes and a Foot Ulcer: What Should I Do?
Andrew Hearn, MD

11:15 AM  Questions and Answers/Panel Discussion

11:30 AM  Lunch/Lunch Symposia/Exhibits

SESSION IV: PERIPHERAL ARTERY DISEASE UPDATE FOR THE PRIMARY CARE PROVIDER  1:30 PM - 2:45 PM

Moderator: Larry Diaz-Sandoval, MD
Chambers I and III | Mayor’s Suite Level

1:30 PM  Peripheral Artery Disease: Where Are We in 2017?
Andrew Hearn, MD

1:45 PM  In 2017 Who Should Be Screened for Peripheral Artery Disease and How?
Claude Minor, MD

2:00 PM  Plumbing Problems: State-of-the-Art Diagnosis and Management of Peripheral Artery Disease for the Primary Care Provider in 2017
Larry Diaz-Sandoval, MD

2:15 PM  Guideline Recommended Medical Treatment for Peripheral Artery Disease in 2017
Srinivas Attanti, MD

2:30 PM  Questions and Answers/Panel Discussion

2:45 PM  Adjourn
The “Multidisciplinary Nursing for Limb Preservation” sessions at NCVH underscore the critical role of nursing in the continuum of care in limb preservation patients.

DAVID SLOVUT, MD, PHD
Chairman, NCVH Nursing Session
SESSION I: YEAR IN REVIEW PLUS A LOOK AT THE NUMBERS  
10:00 AM - 11:40 AM

Moderator: David Slovut, MD, PhD  
Waldorf Astoria Ballroom | Mezzanine Level

10:00 AM  Welcome and Opening Remarks  
David Slovut, MD, PhD

10:03 AM  Latest Advances in Arterial Intervention  
Eric Dippel, MD

10:15 AM  Latest Advances in Venous Care  
Robert Coronado, MD

10:27 AM  Latest Advances in Wound Care  
Steven Kavros, DPM

10:39 AM  Latest Advances in Pharmacotherapy for Cardiovascular Disease  
Wade May, MD

10:51 AM  How to Manage Your Physicians  
Joey Fontenot, RT (R,N)

11:03 AM  Quality Measures and Payment: How it Affects Our Future  
Denise Broussard, RN

11:15 AM  Keynote Address: Latest Advancements in Cardiovascular Health and Why Women Are Not Small Men!  
Mary McGowan, MHRM

11:35 AM  Questions and Answers/Panel Discussion

11:40 AM  Lunch/Lunch Symposia/Exhibits

SESSION II: MANAGING RISK IN CARDIOVASCULAR DISEASE  
1:30 PM - 3:15 PM

Moderator: Denise Broussard, RN  
Waldorf Astoria Ballroom | Mezzanine Level

1:30 PM  Nursing Guidelines for Patients Undergoing Thrombolytic Therapy: What Could Ever Go Wrong?  
Patricia Thorpe, MD

1:42 PM  Medication Compliance: Motivating Providers and Patients to Do the Right Thing  
Jacob Corbell, MBA

1:54 PM  Diet Management and Lipid Management LP(a)  
Michael Ledet, MD

2:06 PM  Questions and Answers/Panel Discussion

2:10 PM  Live Case (Simulcast from the General Session)

2:30 PM  Readmission: Closing the Revolving Door  
Julio Garcia, RN
2:42 PM  Telemedicine and Remote Monitoring: A Tool for Reduction in Readmissions
Kyle Lavergne, NP

2:54 PM  Cardiac Rehabilitation
Nick Cavros, MD

3:06 PM  Questions and Answers/Panel Discussion

3:15 PM  Adjourn
SESSION III: KEY ASPECTS OF MANAGING CRITICAL LIMB ISCHEMIA
10:20 AM - 11:40 AM

Moderator: Valerie Harris, RN
Waldorf Astoria Ballroom | Mezzanine Level

10:20 AM  Opening Remarks  
Valerie Harris, RN

10:22 AM  Critical Limb Ischemia (CLI) Overview  
James Bennett, MD

10:34 AM  Collaboration in the Treatment of CLI: How to Pull it Together  
Monica Gessner-Glendening, APN

10:46 AM  Preparing the Patient for The Cath Lab  
Valerie Harris, RN

10:58 AM  Groin Management: Manual Compression vs. Closure Devices: How Do We End Well?  
J. Michael Bacharach, MD

11:10 AM  Live Case (Simulcast from the General Session)

11:30 AM  Questions and Answers/Panel Discussion

11:40 AM  Lunch/Lunch Symposia/Exhibits

SESSION IV: OTHER CARDIAC THERAPIES
1:30 PM - 3:00 PM

Moderator: Julio Garcia, RN
Waldorf Astoria Ballroom | Mezzanine Level

1:30 PM  State-of-the-Art Cardiac Pacing  
Richard Abben, MD

1:45 PM  Atrial Fibrillation: Treatment Approaches  
Donna Brown, RN

2:00 PM  Cardiogenic Shock: The Role of Mechanical Support  
Jon George, MD

2:15 PM  Advances in Managing Heart Failure  
Agostino Ingraldi, MD

2:30 PM  State-of-the-Art Transcatheter Aortic Valve Replacement (TAVR)  
David Slovut, MD, PhD

2:45 PM  Questions and Answers/Panel Discussion

3:00 PM  Adjourn
NCVH is credited for setting the bar for the broadcast of live peripheral cases from both national and international sites. Year after year, these efforts have resulted in unparalleled, groundbreaking technological firsts.

CRAIG M. WALKER, MD
Chairman, NCVH
ACVP’S SIGNATURE RCIS REVIEW COURSE
8:00 AM - 11:30 AM

Moderators: Jeff Davis, RRT, RCIS
Chambers I and III | Mayor’s Suite Level

8:00 AM  Welcome and Opening Remarks
Patrick Hoier, BS, RCIS

8:05 AM  Coronary and Vascular Anatomy, Physiology and Imaging
Patrick Hoier, BS, RCIS

8:50 AM  Hemodynamics: Cardiac and Vascular
Jeff Davis, RRT, RCIS

9:40 AM  Questions and Answers/Panel Discussion

9:45 AM  Break/Exhibits

10:00 AM  Pathophysiology: Coronary Artery Disease, Aortic Stenosis and Mitral Regurgitation
Jeff Davis, RRT, RCIS

10:45 AM  Interventional Treatments: Acute Coronary Syndromes, Aortic Stenosis and Mitral Regurgitation
Patrick Hoier, BS, RCIS

11:30 AM  Lunch/Lunch Symposia/Exhibits
THURSDAY, JUNE 01

A NEW PERSPECTIVE ON THE CATH LAB

Moderators: Jeff Davis, RRT, RCIS
Chambers I and III | Mayor’s Suite Level

9:30 AM - 11:30 AM

9:30 AM  Tips and Tricks for Complex Coronary Cases
          Rob Lawrence, RRT, RCIS

9:45 AM  Tips and Tricks for Complex Peripheral Cases
          Ryan Hebert, RT, (R)

10:00 AM  When Should We Consider Hemodynamic Support?
          Rob Lawrence, RRT, RCIS

10:15 AM  The Venous System: What Can Go Wrong?
          Julie Logan, RN

10:30 AM  Keeping You Safe from Radiation Exposure
          Rob Lawrence, RRT, RCIS

10:45 AM  Ethical Dilemmas in the Cath Lab
          Regina Deible, RN

11:00 AM  Economic Realities for Today's Cath Lab
          Michael Guiry, PA-C, MBA

11:15 AM  PE: The Great Masquerader, PERTinent Info for
          Cardiovascular Teams
          Regina Deible, RN

11:30 AM  Lunch/Lunch Symposia/Exhibits
CO₂ ANGIOGRAPHY SOCIETY
ANNUAL CONFERENCE
AGENDA
NCVH has made it possible for like-minded physicians and healthcare professionals to have a collective forum to discuss the ongoing advancement of intravascular CO₂.

JAMES G. CARIDI, MD, FSIR
Chairman and Founder,
CO₂ Angiography Society
FRIDAY, JUNE 02

CO₂ ANGIOGRAPHY SOCIETY ANNUAL CONFERENCE
8:00 AM - 11:45 AM

Moderators: James Caridi, MD
Orpheum Room | Second Level

8:00 AM  Welcome and Opening Remarks
James Caridi, MD

8:05 AM  History and Science of CO₂ Digital Subtraction Angiography
Kyung Cho, MD

8:30 AM  CO₂ Digital Subtraction Angiography for Diagnosis and Intervention: Indications and Contraindications
James Caridi, MD

9:00 AM  CO₂ Use in Endografts
Karl Stark, MD

9:30 AM  Contrast-Induced Nephropathy at What Cost?
Craig Walker, MD

10:00 AM  Break/Exhibits

10:15 AM  CO₂ Digital Subtraction Angiography in Peripheral Vascular Disease (PVD)
Owen Mogabgab, MD

10:35 AM  CO₂ Digital Subtraction Angiography in Venous Diagnosis and Intervention
Hector Ferral, MD

10:55 AM  CO₂ Digital Subtraction Angiography in Dialysis: Do’s and Don’ts
Daniel Simon, MD

11:15 AM  CO₂ in the Outpatient Setting
Bret Wiechmann, MD

11:30 AM  CO₂ Angiography Case Studies
James Caridi, MD
Karl Stark, MD
Kyung Cho, MD

11:45 AM  Lunch/Lunch Symposia/Exhibits

AAANEURYSM OUTREACH
315
aoutreach.org
AAAneurysm Outreach, a New Orleans based national non-profit organization, is the nation’s only non-profit dedicated to eliminating the silent killer of abdominal aortic aneurysms (AAA). Working throughout the country, AO has been saving lives through free ultrasound screening events since 1999, and provides ongoing AAA awareness, education and outreach.

ABBOTT VASCULAR
202
abbottvascular.com
Abbott Vascular is the world’s leader in drug-eluting stents. Abbott Vascular has an industry-leading pipeline and a comprehensive portfolio of market-leading products for cardiac and vascular care, including products for coronary artery disease, vessel closure, endovascular disease and structural heart disease. Visit Abbott at www.abbott.com and connect with us on Twitter at @AbbottNews.

ACIST MEDICAL SYSTEMS
306
acist.com
ACIST, a Bracco Group company, offers innovative technologies that simplify cardiovascular procedures and empower clinicians. The portfolio includes: CVi variable rate contrast injector, RXi the first and only “Rapid FFR” MicroCatheter system and HDi High Definition IVUS system.

AMARIN PHARMA, INC.
123
amarincorp.com
Amarin Corporation plc is a biopharmaceutical company focused on the commercialization and development of therapeutics to improve cardiovascular health. Vascepa® (icosapent ethyl), Amarin’s first FDA approved product, is a highly-pure, EPA-only, omega-3 fatty acid product available by prescription. For more information about Vascepa visit www.vascepa.com. For more information visit www.amarincorp.com.

AMERICAN PROFESSIONAL WOUND CARE ASSOCIATION (APWCA)
321
apwca.org
The American Professional Wound Care Association® (APWCA) is a non-profit medical association welcoming medical providers from all disciplines involved in prevention and treatment of difficult wounds. Through a synergy of disciplines, APWCA has been a worldwide leader in clinician advocacy and education for the prevention and treatment of acute and chronic wounds since 2001. This association provides an informational and educational forum for healthcare providers, while promoting excellence in wound healing and patient advocacy.
American Vascular partners with a variety of physician specialties to develop and manage five-star quality, free standing vascular centers, allowing physicians the ability to expand their practice, maintain independence and offer patients an exceptional continuum of care. AVA has a proven track record with 100+ years combined experience of AVA senior leadership in healthcare and business development. The Company currently operates and owns thirteen Centers in nine states. AVA manages all aspects of the Vascular Center allowing the physician to focus on providing quality patient care. Expand your practice while enhancing patient care.

Amgen is committed to unlocking the potential of biology for patients suffering from serious illnesses by discovering, developing, manufacturing and delivering innovative human therapeutics. A biotechnology pioneer since 1980, Amgen has reached millions of patients around the world and is developing a pipeline of medicines with breakaway potential.

AngioAdvancements offers proprietary medical devices designed to manage and deliver medical gases. The AngiAssist® Medical Gas Management System and the Co2mmander® ELITE Portable Medical CO₂ Delivery Systems solve the issues that previously existed in the management of CO₂ gas. This unique technology fills a current need in established medical procedures improving upon an existing technology or device. Need is clearly-defined and acknowledged by medical professionals. Each product is manufactured in the United States and is brought to market in a manner that reduces the overall total cost of an episode of care. www.AngioAdvancements.com  239.731.6200

AngioDynamics Inc. is a leading provider of innovative, minimally invasive medical devices used by professional healthcare providers for vascular access, surgery, peripheral vascular disease and oncology. AngioDynamics’ diverse product lines include market-leading ablation systems, fluid management systems, vascular access products, angiographic products and accessories, angioplasty products, drainage products, thrombolytic products and venous products. More information is available at www.AngioDynamics.com.
Angioslide, is a privately-held medical device company dedicated to providing physicians with simple, cost effective, innovative products for emboli management during vascular interventions. The company markets the PROTEUS™ balloon catheter, an FDA approved device that enables physicians to perform PTA dilatations while capturing and removing dislodged embolic particles (debris, thrombus) in peripheral arteries. The PROTEUS unique suction mechanism is incorporated into a proprietary PTA balloon. Following dilatation with the PROTEUS balloon, the physician activates the embolic capture feature by simply pulling back on the catheter handle. Upon completion, the physician deflates and retracts the balloon with the captured debris.

Argon Medical Devices, Inc. is a global manufacturer of specialty medical devices for Interventional Radiology, Vascular Surgery, and Interventional Cardiology procedures. The Argon brand is recognized for quality products that improve patient outcomes, featuring the Option™ELITE Inferior Vena Cava Filter, the CLEANER™ Rotational Thrombectomy Systems, and the TLAB™ Transjugular Liver Biopsy System.

Asahi has a full line of .014” and .018” guidewires with proprietary ACT ONE composite core technology that provide best in class torque response and durability designed to cross the most challenging PAD and CLI lesions. Asahi’s guidewires ensure that physicians can efficiently complete the simple cases and simplify completion of the most complex cases. Asahi microcatheters are designed to work with our guidewires to access and cross tortuous anatomy and calcified lesions. Asahi will work with you to find the most cost effective and efficient guidewire and microcatheter system to meet the needs of your outpatient endovascular procedures.

AstraZeneca is a global, innovation-driven biopharmaceutical business with a primary focus on the discovery, development and commercialization of prescription medicines for gastrointestinal, cardiovascular, neuroscience, respiratory and inflammation, oncology and infectious disease. AstraZeneca operates in over 100 countries and its innovative medicines are used by millions of patients worldwide.
Avinger is radically changing the way PAD is treated through its development of lumivascular technologies and programs. By integrating real-time intravascular imaging onto therapeutic catheters, interventionists can now see what they are doing inside the vasculature. This approach can help preserve native vessels and lead to better patient outcomes.

Bard Peripheral Vascular is a leading medical device company that specializes in treatment of stenoses of the vascular system among other diseases. The product portfolio includes the Lutonix™ Drug Coated Balloon, which offers a full size product matrix to treat peripheral, coronary, and dialysis access lesions. Additional products include Crosser® CTO Recanalization Catheter which utilizes high frequency vibration to facilitate central lumen CTO recanalization; LifeStent® Solo™ Vascular Stent System with the longest stent lengths on the market.

Boehringer Ingelheim is a research driven company dedicated to the discovery, development, manufacture and marketing of innovative health care products.

Boston Scientific transforms lives through innovative medical solutions that improve the health of patients around the world. As a global medical technology leader for more than 35 years, we advance science for life by providing a broad range of high performance solutions that address unmet patient needs and reduce the cost of health care.

CARDIOVASCULAR INSTITUTE OF THE SOUTH
105
cardio.com
Founded by Dr. Craig Walker in 1983, Cardiovascular Institute of the South (CIS) is the largest single specialty cardiology practice in Louisiana. CIS cardiologists represent nearly every specialty in heart and vascular medicine. CIS is a world-leader in preventing, detecting, and treating cardiovascular disease with a comprehensive heart and vascular program. CIS is also world-renowned for making significant advancements in the development of non-surgical treatments to treat peripheral arterial disease. CIS has earned international acclaim as a leader of research, development and education. With a team of more than 675 dedicated members, CIS provides comprehensive cardiovascular care to 14 communities in south Louisiana, with a location in Mississippi and affiliations in Texas. For more information about CIS, call 1-800-425-2565 or visit www.cardio.com.

CARDIOVASCULAR SYSTEMS, INC.
109
csi360.com
Cardiovascular Systems, Inc. (CSI) is leading the way in the effort to successfully treat arterial calcium, a common complication for millions of patients suffering from peripheral and coronary artery diseases. CSI’s mission is to develop and commercialize innovative solutions that help physicians save limbs and lives when facing this difficult-to-treat disease state. CSI is committed to clinical rigor, constant innovation and a defining drive to set the industry standard to deliver safe and effective medical devices that improve lives.

CARDIVA MEDICAL, INC.
124
cardivamedical.com
Cardiva Medical, Inc. is a privately held medical device company that is exclusively focused on developing and commercializing innovative vascular closure device technology. Cardiva’s definitive vascular closure device, VASCADE® VCS, was approved by the FDA in 2013. VASCADE VCS is Safe, Simple, and Guaranteed with ZERO major complications and is proven statistically superior to manual compression in a prospective, multi-center randomized clinical trial called RESPECT. The device is elegantly simple to deploy, providing both mechanical as well as physiologic hemostasis with its bio-absorbable collagen plug.

CHICAGO ENDOVASCULAR CONFERENCE
325
cvcpvd.com
CVC is the nation’s only medical conference offering simultaneous arterial and venous programs covering all aspects of endovascular training. The CVC experience is unique, fostering an intimate atmosphere of learning, thereby facilitating collaboration with the world’s most respected leaders and pioneers in both arterial and venous fields. The four days of practice-changing, interactive learning feature live cases by arterial and venous experts, hands-on workshops, cadaver-based skills training, and an exhibit hall showcasing the latest and greatest technologies in endovascular medicine. CVC 2017: July 24-27, 2017 at the Radisson Blu Aqua in Chicago, IL.
CLEVELAND HEARTLAB LLC
119

Cleveland HeartLab offers innovative, scientifically proven, and medically relevant biomarkers that are predictive of cardiovascular risk. We offer inflammatory and other advanced biomarker testing that practitioners from across North America, Europe and Asia use in the management and prevention of heart disease. Our novel biomarker technologies are offered through our CAP-accredited and CLIA-certified clinical reference laboratory. We also run a research and development laboratory where next-generation cardiovascular disease biomarkers are being developed for use through our clinical laboratory.

CLI GLOBAL SOCIETY
317

cliglobalsociety.org

The Critical Limb Ischemia (CLI) Global Society’s mission is to improve quality of life by preventing amputations and death due to CLI. CLI Global Society is the only professional, multidisciplinary, membership-based medical society created to establish a unified voice in the fight against unnecessary amputations from CLI. The organization also serves its members by providing peer networking, resources, professional standards and best practices and opportunities to help make CLI and PAD global priorities.
